

# Java Lambdas Part 1 Notes

Team Treehouse

June 2, 2020

## 1 Old School

- Is similar to callback function used in javascript, i.e. sorting

```
1 | var numbers = [4, 2, 5, 1, 3];  
2 | numbers.sort(function(a, b) {  
3 |     return a - b;  
4 | });  
5 | console.log(numbers);  
6 |  
7 | // [1, 2, 3, 4, 5]
```

**This here :)**
