1 Memory Management

- Physical Memory vs Virtual Memory

    - Physical Memory

        * Is RAM :)!!
        * Is the first memory used when computer requires memory such as loading application or OS

    - Virtual Memory

        * Is stored on hard drive
        * Is used when RAM is filled
        * Is slower than RAM

- Memory Management

- Fixed Partitioning

- Dynamic Partitioning

- Paging

- Address Translation

- TLBS
